**DETAILED ACTION**

1. Claims 1-3 and 5 are rejected under 35 U.S.C. 102(b or a) as being anticipated by Lazzarotti (b) or Gretener et al (a).

Both references teach (1) measuring a void on the main conveyor, (2) checking the availability of an equal or less sized article on the feed paths and (3) timely feeding any appropriately sized article into the void on the main path. Note that, when an article is moved from the feed path, a spacing is created or enlarged in front of the next upstream article in that feed path.

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
